

Heathvale House

Heathvale House is a care home located in Thornton Heath, Croydon, Greater London supporting gentleman who have a Mental Health need and/or Neurocognitive/Acquired Brain Injury condition which affects their behaviour, ability to process information and ability to function independently.

The service can support males of working age who may present with alcohol abuse, substance misuse, dual diagnosis, alcohol related dementias and early onset dementias. Service Users may transition from Mental Health inpatient services, failed community placements and care homes, acute/PICU hospitals, neurorehabilitation services or secure units that no longer meet their needs.

Heathvale House specialises in managing aggression and challenging presentations, agitation, sexual disinhibition, vocalisations and other behaviours that pose a risk to themselves or others.

Heathvale offers a safe and comfortable setting for up to nine Service Users who either require or benefit from a male only service. We have a specialist and dedicated team that comprises of a registered manager and qualified care staff to support our Service Users 24 hours a day. Our unique person centred approach encourages engagement with family and involvement to create a responsive and Service User led environment. The Service has a large garden, activity room and pleasant communal space.

Heathvale House can accept individuals subject to Ministry of Justice (MoJ) restrictions, a Community Treatment Order (CTO) - including individuals applicable to Deprivation of Liberties Safeguarding (DoLS) and on Licence as directed by the Parole Board. We aim to reduce the use of medication through the use of evidence-based non-pharmacological interventions such as positive behaviour support and sensory interventions. We track a variety of outcomes in domains such as meaningful activity, physical health, quality of life and risk. We work collaboratively with mental health services, social services, primary care and specialist services to ensure high standards of care to all Service Users.

CHALLENGING BEHAVIOURS

Assessment Process

Once a referral is made to our service we will review the information and if appropriate we will aim to assess the Service User within two working days. We will endeavour to complete and send the assessment report, together with a detailed pre-admission care plan and cost breakdown within three working days following the face to face assessment. We work closely with our Service Users, customers, current placement teams and families to facilitate a smooth transition into the service.

Our Aims & Approach

Deliver care that has a holistic approach and considers the cognitive, social, emotional, psychological and physical issues affecting each Service User along with the individual's long and short-term goals.

We aim to remove or minimise restrictions wherever possible to each Service User's participation in daily life activities.

Provide comprehensive, person-centred care through an interdisciplinary approach based on communication and collaboration not just with the individual but with the involvement of relevant family members, carers and care-coordinators.

Provide one-to-one focused rehabilitation and development of independent living skills where possible and support the use of daily activities of living, as required.

Provide ongoing assessment and review behavioural risks, Mental Health related risks, physical health risks and where indicated forensic risk assessments.

The recovery and re-ablement focused support offer people the skills they may need to live as independently as possible, this includes access to educational opportunities and support with gaining either voluntary or paid employment.

Wherever possible maximise recovery from the physical, cognitive and psychological impairments the individual may present with.

Staff encourage people to develop confidence in activities of daily living and managing their wellbeing. Our care builds self-esteem, enhancing integration and promoting social, cultural and leisure interests. A key worker is assigned to each person ensuring a holistic approach to individual care.
